If you are fond of history, it contains the finest collection of histories in the world, embracing every nation of ancient and modern times, from hoary Egypt, with its civilization running back for thousands upon thousands of years, to the latest born of the great family of nations. And they are not dry as dust histories, either, giving nothing but dates and mere descriptions of events; but genuine historical works, as interesting as Macaulay's History of England, and some of them from Lord Macaulay's pen. Or if you have a taste for travels and descriptions of strange countries and their peoples, the AMERICANIZED ENCYCLOPÆDIA BRITANNICA will lead you with the famous voyagers and explorers among the sunny islands of the Southern Seas, through the dreary wastes of Arctic ice, across the pathiese wilds of Africa, or among the quaint peoples of the East. It will tell you of the vanished civilization of Peru, of the growth or subsidence of feudalism in Europe, of the social and governmental polity of modern nations. And if, while you are reading, you come across some reference to a great man with whose deeds you are unfamiliar, the Americanized Encyclopedia Britannica contains a perfect library of biographical memoirs, to which you can turn with the certainty of

finding just exactly what you want to know. Are you interested in science? The Americanized Encyclopædia Britannica will tell you, in clear, understandable English, all about any science you may wish to study. Are you curious about mechanical inventions? The P-
